EXPERIENCE OF EXPERTS

## BNN URSUS STRONG 02

Code: Z50309

Size: 39 - 48

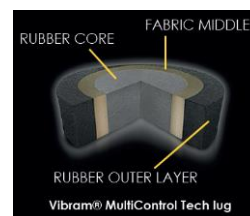

Standard: EN ISO 20347 O2 SRC FO WR

**REGI-TEX**  
experienced membrane

Year-round boot with upper of Nubuck grain leather is equipped with **REGI-TEX**® waterproof membrane and **VIBRAM**® **WINTER IRON TIRE** rubber outsole including a special slip-resistant technology named **MULTICONTROL TECH**. The footwear is equipped with quick lacing system and protective elements in the toe and heel. Waterproof leather in combination with the membrane provides high comfort for the user. The boots are suitable for both, work as well as active sports in the nature in challenging weather and terrain conditions.

**VIBRAM WINTER IRON TIRE** with technologies of **MultiControl TECH** and **Superwork**  
**Safe sole for demanding users**

- Cleat width of the sole pattern promotes maximum stability.
- Sole pattern height improves traction in unstable and difficult terrain.
- Channels between individual cleats are to remove oils and liquids, and thereby contribute to increased adhesion of the sole to the surface.
- Special fabric layer of the **MultiControl TECH** in the rubber lugs provides excellent slip resistance on smooth, slippery, snowy and icy surfaces.
- The special rubber mixture of **Superwork** provides antistatic properties as well as excellent resistance to fuel oils.
